Alu-Tech Bodyshell **ADVANCE**

www.baileyofbristol.co.uk

Welcome to Bailey

Welcome to the Bailey of Bristol motorhome range. Since its entry into the motorhome market four years ago Bailey of Bristol has quickly established a reputation for building vehicles which provide the unique combination of superior performance, award-winning design and unbeatable value for money.

All of our products are designed using over sixty-five years of experience in leisure vehicle design and are built in our state-of-the-art South Liberty Lane production facility using our patented Alu-Tech construction system. Plus to ensure they remain some of the best-engineered and most technically advanced products available, we subject them to a programme of continuous improvement through leading independent experts - including our ground-breaking crash test research at the internationally renowned Millbrook Proving Ground.

As a result, we are proud to present two motorhome ranges - the Approach Advance and the Approach Autograph - offering something to suit every lifestyle and budget.

To help make an informed decision about which of our vehicles will best meet your needs, we recommend you visit your local Bailey retailer who will be happy to demonstrate why Bailey motorhomes have become so popular.

Alu-Tech Bodysell

The height of refinement

About Alu-Tech

Prior to the introduction of the Alu-Tech construction system in 2009 there had been little change in leisure vehicle bodyshell design for over thirty years. Whilst conventional construction served us well during that period with the advances in production technology and materials we asked: was there a better way?

Two years in the making and the result was the development of our patented Alu-Tech design technology which takes a completely new approach to bodyshell construction. Using a unique interlocking aluminium external framework to which the body panels are bonded and then clamped using internal fixings it has a much stronger and more rigid shell which provides greater protection against the elements.

The sole use of thicker fully laminated panels in this new assembly greatly enhances the thermal performance of the shell, making our motorhomes genuine four-season vehicles. The replacement of the timber elements in the sides and roof with a composite plastic internal skeleton and GRP wall linings, in conjunction with a significant reduction in the number of external joints and fixing points, enhances its resistance to moisture ingress.

When you consider that these benefits of ownership were achieved without a cost or a weight penalty you can begin to see why the Alu-Tech construction system is so unique.

Extreme Testing

Equivalent to 40 years accelerated life testing carried out at Millbrook Proving Ground on numerous road surfaces

Tested in extreme temperatures as low as -28°C and as high as 40°C in a climate control chamber

Cost neutral design technology

- Advanced technology universally available at no extra cost

Sole use of thicker fully laminated bodyshell panels covered in an impact resistant outer GRP skin

- Increased strength and durability providing greater protection against the elements
- Enhanced thermal insulation capabilities to enable holidaying all year round

Interlocking aluminium extrusion external framework with internal fixings

- Increased strength and durability providing greater protection against the elements
- Minimises the number of potential water access points to improve the overall integrity of the shell

Timber free upper bodyshell panels featuring a composite plastic internal skeleton and a GRP inner wall lining

- Improved durability by limiting the impact any possible ingress water may cause

Lighter bodyshell with a more balanced weight distribution

- Increased payloads and lower maximum weights making the motorhomes accessible to more drivers who have driving license restrictions
- Improved road handling and braking efficiency for safer driving

Designed to be Driven

Designed to be driven all models are powered by a 2.2 Hdi 130 bhp engine complete with a 6-speed manual gearbox housed in a Peugeot Boxer Euro 5 cab and thus benefit from the resulting improvements in performance and reduction in vehicle emissions. Driver and passenger comfort whilst en-route is also catered for with a pair of fully adjustable front swivel seats with twin arm rests whilst cab air conditioning and engine cruise control all included as standard*.

The Peugeot cab is matched with a new ultra-low profile lightweight AL-KO AMC chassis which, with its lower centre of gravity, provides a more balanced weight distribution that improves road holding and braking efficiency as well as allowing for increases in user payloads and improving access in and out of the vehicle via a low level entrance step.

Safety considerations remain of paramount importance and thought has been given to this aspect of the design throughout the vehicle, as highlighted by the fitment of dual air bags in the front cab of all models**, premium brand tyres and a spare wheel housed in an automotive style floor mounted wind down carrier.

In addition, following the successful completion of the crash test research programme at the Millbrook Proving Ground, additional strengthening has been made to the floor and furniture in the dedicated rear passenger areas to enhance the effectiveness of the fitted three point seat belts (see Page 30 for more information).

*Autograph range only. Cab air conditioning available as part of the Premium Pack cost option on the Advance range

**Driver airbag only as standard on Advance range. Passenger air bag available as part of the Premium Pack cost option.

03 Steel frame seat base support for all designated travel seats (model specific)

04 Fully adjustable front swivel seats with twin arm rests

Approach Advance and Approach Autograph

Taking you forward

APPROACH

Alu-Tech Bodyshell

ADVANCE

The new Approach Advance is a range of low cost, light weight, low profile vehicles developed specifically with the first-time motorhome buyer in mind.

All models are built using the patented Alu-Tech bodyshell, including a GRP outer skin for extra durability, which provides the vehicle with numerous benefits of ownership including market-leading thermal insulation, allowing you to holiday all year round. This is married to a fully-specified Peugeot Boxer Euro 5 cab, powered by a 2.2 Hdi 130 bhp engine complete with a 6-speed manual gearbox, and a new ultra-low profile lightweight AL-KO AMC chassis to provide the very best in on-the-road performance.

With great looks inside and out in addition to a level of specification not normally found in a motorhome in this price bracket, the Approach Advance really does offer something genuinely different for those people thinking of owning a new motorhome for the first time.

615

635

640

Approach Advance 635

What makes Advance different?

- A low cost, light weight range of low-profile motorhomes in a choice of four popular layouts suitable for both couples and families
- A high performance Alu-Tech bodyshell with a GRP outer skin to provide greater protection against the elements
- All models are built using a well specified Peugeot Boxer Euro 5 cab powered by a 2.2 Hdi 130 bhp engine complete with a 6-speed manual gearbox
- Uniquely for this market sector all models are built using the ultra-low profile lightweight AL-KO AMC chassis for improved driving performance and increased user payloads
- All models are under 7 metres in length and are built on a 3,500kg chassis to make them suitable for anybody holding a full UK driving licence

Approach Advance 640 (Standard Queensway upholstery shown. Optional Premium Pack fitted)

Providing comfort and practicality in equal measure these well designed vehicles include a range of features designed to make your life easier. Models come supplied with a high performance 80Ah auxiliary Banner leisure battery, housed in a convenient under floor storage compartment, to give greater independence away from a mains power source. Whilst a 90litre on-board fresh water tank and 102 litre external waste tank offer continuous supply for extended periods and in extreme weather conditions.

A host of internal and external storage options facilitated by the double skin floor construction have been incorporated into the designs to allow you to take advantage of the generous payload allowances available with every model. In addition the fitment of a new Whale rapid heat 4 kw blown air system, complete with a user-friendly push button digital control panel, combines with the superior thermal performance of the Alu-Tech bodyshell to allow Approach Advance owners to enjoy their vehicle all year round.

Approach Advance 640 (Standard Pimlico upholstery and optional bed linen shown)

Inside, quality fixtures and fittings give the Approach Advance a more premium look and feel than usually seen in entry-level models. Its high specification includes: 'Mendip Ash' furniture; Italian design overhead locker doors with a dual-finish and push-button catches; low-level courtesy lighting; premium 'Pimlico' upholstery fabric; a Whale rapid heat hot water system and 4kw blown air heating system; Thetford three-burner gas hob and Duplex anti-rattle combination oven and grill; 103 litre Dometic fridge (80 litre for 615 model); 90 litre fresh and 102 litre waste water tanks; and a fully lined shower with the more powerful and efficient Ecocamel shower head that also uses less water.

All models have fixing points for an exterior ladder, roof rack and bike rack, and are also pre-wired for the fitting of a rear view camera, satellite dish or aerial to allow the vehicle to easily be tailored to suit individual customer requirements, while the keenly priced optional Premium Pack offers the added luxuries of cab air conditioning, a passenger air bag, a concertina windscreen blind, removable cab carpet and a DAB Radio with Bluetooth connectivity is bound to appeal to everybody.

Key Advance Features

- 01 Premium brand tyres
- 02 AL-KO AMC chassis
- 03 Wind down floor mounted spare wheel carrier and spare wheel
- 04 Midi Heki roof light
- 05 Thetford 3-burner gas hob
- 06 Ecocamel shower head

Optional Extras

- 07 Premium Pack
 - Contents include:
 - A Passenger air bag
 - B DAB radio with Bluetooth connectivity
 - C Cab air conditioning
 - D Removable carpet
 - E USB connection point
 - F Concertina windscreen blind
- 08 Microwave oven
- 09 Bespoke motorhome bedding sets to co-ordinate with soft furnishings (model specific)

Note: It is possible to upgrade the MTPLM on certain models. Please contact your supplying retailer for more information on this cost option. The MRO is calculated with the fresh water tank containing 20 litres of water. If you travel with more water than this in the tank then the User Payload will reduce accordingly. A production tolerance in the MRO has also been allowed for in the calculation of the Payload margin.

Vehicle Construction

Peugeot Boxer Cab

Peugeot Euro 5 Boxer Cab supplied with a 3 year / 100,000 mile warranty & 12 months Peugeot Assist Cover | Peugeot 2.2 Hdi (High Pressure Direct Injection) 130 BHP engine with six speed manual gear box | Bianco white cab with colour coded bumpers | Premium brand tyres with tyre pressure sensors | Electric windows | Electric heated wing mirrors with direction indicators | Variable power steering | Anti-lock braking system (ABS) | Electronic Brake Force Distribution (EBFD) | Emergency Brake Assist (EBA) | Front and rear brake pad monitoring system | Engine immobiliser | Driver airbag | Fully adjustable upholstered driver and passenger seats with twin armrests | Thermal cab side window covers | 2 x 12v sockets | Daytime running lights

AL-KO AMC Chassis

Ultra-low profile AL-KO AMC Chassis | Wind down floor mounted spare wheel carrier and spare wheel | Chassis prepared for towbar fitment

Alu-Tech Bodysell Habitation Area

Supplied with a 6-year transferable body shell integrity guarantee and a 3-year transferable manufacturers components warranty* | 4-year transferable extension to bodysell integrity guarantee available as a cost option (making 10 years in total)* | 3-year transferable extension to manufacturers component warranty available as a cost option (making 6 years in total)* | EN-1646-1 Grade III classification for heating and thermal insulation | European Whole Vehicle Type Approval

Construction

Structural interlocking aluminium extrusion external framework with no external fixing points for additional strength and rigidity | Five part fully bonded exterior panel assembly system | Upper body panels manufactured using superior bead application laminating technology for a stronger more consistent bond | Upper body panels built using a timber free construction, incorporating a composite plastic internal skeleton, a high density polystyrene insulation and a GRP inner wall lining | Upper body panels cloaked in a single sheet impact resistant GRP outer skin for extra durability | Strengthened floor panel with GRP underside protection | Aero-dynamic & aesthetically enhanced front and rear bodysell profiles | 'Polar white' bodysell colour and co-ordinating graphics scheme

Exterior Features

Dometic slim line flush fit habitation door with a gas-strut assisted mechanism for smooth operation | Low level insulated habitation door well step with non-slip mat & grab handle | Mini Heki roof light located over front lounge & central kitchen (model specific) | Midi Heki roof light located over rear lounge or bedroom | Polyplastic double glazed windows throughout with night latch ventilation | Remis retractable flyscreens and blinds to all principal windows | Remis splash proof retractable blinds for kitchen & washroom windows | Exterior access storage locker (635, 640) | Exterior 230v power inlet | Vision Plus satellite connection provision | Fixing points for rear mounted cycle rack | Fixing points for exterior ladder and roof rack

Interior Features

Internal headroom of up to 2.10m (6'10") | Internal body width of 2.08m (6'9")

Furniture & Soft Furnishings

Bailey 'Mendip Ash' furniture finish | Dual finish Italian design overhead locker doors with positive catches | 'Ash grey' kitchen & washroom worktop finish | Premium quality fixtures and fittings in polished chrome finish | Slide out bed boxes for easy bed make up (635 & 640) | Roller slat mechanism for easy bed make up (615 & 665) | Deep-fill bed boxes with enhanced storage capacity | Sprung beech bed box tops for additional comfort | Automatically operated ceiling mounted drop down double bed with sprung base (665) | Aluminium frame fixed double bed with gas strut assisted opening mechanism (640) | Free standing and/or wall mounted table (both in 665) | Aircraft style overhead locker system with split level storage, domestic style metal hinges and positive door catches | Structural locker dividers with greater load bearing capacity | Standard 'Pimlico' soft furnishings with co-ordinating curtains and two scatter cushions | NEW standard 'Queensway' soft furnishings with co-ordinating curtains and two scatter cushions | Fully sprung upholstery featuring premium quality fabrics, high density filling and superior cushion construction | De-Luxe sprung double bed mattresses (640) | Foam filled double bed mattress on a sprung base (665) | Textured finish durable floor vinyl | Under floor dedicated storage area suitable for footwear | Split section loose fit drop in carpets (25oz pile density)

Services

Electrical System

Premium 80 ampere/hour Banner leisure battery | Dedicated under floor leisure battery storage locker | Digital electrical control panel with push button operation for all motorhome services | 12v ambient and task lighting fittings throughout | Additional low level night lights | 230v power supply with up to four interior sockets | Up to two TV stations with 230v/12v/aerial sockets | Domestic style consumer unit with dedicated access door | Switch mode battery charger with 20 amps output | RCD/MCD protection for mains electric system | 25 metre mains connecting lead | Pre-Wired for satellite and aerial connection and rear view camera

Water & Heating Systems

Whale floor mounted 4kw space heater and blown air heating system | Whale rapid heat water heater | Whale premium freshwater pump (submersible) | Pressurised hot and cold fresh water system | Rigid pipe waste plumbing system | 90 litre onboard fresh water tank with baffles and level sensor | 102 litre external waste water tank with baffles and level sensor | Thetford C-260 cassette toilet with integrated header tank | Inboard shower unit with ceramic ball mixer tap and Ecocamel shower head | Fully lined separate shower cubicle with bi-fold partition door (635, 640) | Fully lined shower wet room with partition curtain (615, 665) | Washroom hand basin with ceramic ball mixer tap

Kitchen Equipment

Dometic 103 litre refrigerator with manual ignition and detachable full width freezer compartment. Capacity increases to 110 litres when freezer compartment is removed (635, 640 & 665) | Dometic 80 litre refrigerator with manual ignition and detachable full width freezer compartment. Capacity increases to 85 litres when freezer compartment is removed (615) | Thetford Duplex anti-rattle combination oven and grill | Thetford 3-burner gas hob incorporating flush fitting glass hinged lid and conveniently located controls | Stainless steel circular kitchen sink with swan-neck mixer tap, circular washing up bowl, drainer and chopping board | Provision for optional microwave oven

Safety and Security Equipment

AL-KO outriggers fitted to AMC Chassis for enhanced floor strength | 3-point seat belts on all designated travelling seats (615,665) | Designated travel seat head rests (615, 665) | Steel frame seat base supports for all designated travelling seats (615, 665) | Steel framed seat base tops with Velcro base cushion fastenings for all designated travelling seats (615, 665) | Steel framed structural bulkhead to support all rear-facing designated travelling seats (665) | Dedicated storage location for both free-standing & wall mounted tables | High security door lock | Smoke alarm | Carbon monoxide alarm

Optional Extras

Premium Pack* | Microwave oven | Bespoke motorhome bedding sets to co-ordinate with soft furnishings (model specific)

*Optional Premium Pack Contents:

Cab air conditioning | Passenger airbag | Remis concertina windscreen blind | Removable cab carpet | DAB Radio with Bluetooth connectivity and USB connection point

*Terms and conditions apply. Full specification and warranty information details can be found by visiting: www.baileyofbristol.co.uk

The height of refinement

APPROACH
Autograph
Alu-Tech Bodyshell

With the introduction of the Approach Autograph the Bailey motorhome really has come of age. Featuring a level of refinement which only experience can bring this multi-award winning range will provide you with everything you will need for relaxing and enjoyable holidays.

All models are built using the patented Alu-Tech bodyshell, including a GRP outer skin for extra durability, which provides the vehicle with numerous benefits of ownership including market-leading thermal insulation, allowing you to holiday all year round. This is married to a fully-specified Peugeot Boxer Euro 5 cab, powered by a 2.2 Hdi 130 bhp engine complete with a 6-speed manual gearbox, and a new ultra-low profile lightweight AL-KO AMC chassis to provide the very best in on-the-road performance.

Striking exterior and interior looks combine with a top of the range specification, including Alde central heating, to make the Autograph one of the most desirable motorhomes on the market - available today at a price you can afford.

What makes Autograph different?

- A high performance Alu-Tech bodyshell with a GRP outer skin to provide greater protection against the elements
- All models are built using a fully specified Peugeot Boxer Euro 5 cab powered by a 2.2 Hdi 130 bhp engine complete with a 6-speed manual gearbox
- All models are built using the ultra-low profile lightweight AL-KO AMC chassis for improved driving performance and increased user payloads
- A fully specified Alde radiator heating system combines with the superior performance of the Alu-Tech bodyshell making the Approach Autograph the ultimate four-season vehicle
- Spacious interiors offer comfort and practicality in equal measure plus high levels of specification and competitive on the road prices put a premium product within reach of many more people for the first time

Approach Autograph 745 (Optional Piccadilly upholstery and bed linen shown)

As practical as they are comfortable these well thought-out motorhomes include a variety of new features designed to make your life easier. Models now come supplied with a high performance 110Ah auxiliary Banner leisure battery, housed in a convenient new under floor storage compartment, to give greater independence away from a mains power source. Whilst fully insulated external fresh water and waste tanks offer continuous supply for extended periods and in extreme weather conditions.

A host of new internal and external storage options facilitated by the new double skin floor construction have been incorporated into the designs to allow you to take advantage of the generous payload allowances available with every model. A new fully-specified Alde radiator heating system, complete with user-friendly digital control panel, has also been added to the equipment list to provide programmable heating en-route or on site - which combined with the superior thermal performance of the Alu-Tech bodyshell makes the Approach Autograph the ultimate four-season vehicle.

Approach Autograph 740 (Standard Trafalgar upholstery shown)

Interior decor, featuring a Walnut finish, has been expertly refined with new cabinetry featuring elegant curved profiles, dual-finish locker doors, high gloss worktops and polished chrome fittings to enhance the feeling of quality. While new design elements such as the ergonomic kitchen units with contrasting overhead locker system plus the additional new ambient and task lighting give the Approach Autograph range the all-important wow factor.

Each model comes with a choice of either Trafalgar or Piccadilly luxurious soft furnishing options, featuring superior construction and premium quality fabrics, both of which are supplied with coordinating curtains and a pair of reversible scatter cushions.

As people have come to expect from Bailey, models are extremely well specified and are packed with all the home comforts owners will need for relaxing and enjoyable holidays. Notably they include fully equipped kitchens, featuring the new Thetford Caprice combination anti-rattle oven with a dual-fuel hob including an electric hotplate, and cleverly designed washrooms all of which contain a separate fully lined cubicle containing an energy-saving Ecocamel shower.

Key Autograph Features

- 01 Underfloor storage area with exterior access, suitable for folding chairs & BBQs (model specific)
- 02 Premium brand tyres
- 03 Dometic slim line flush fit habitation door with window, blind & bin
- 04 DAB radio with Bluetooth connectivity & USB connection point
- 05 Alde radiator and water heating system
- 06 Dual fuel hob with electric hotplate and 3 gas burners
- 07 Stainless steel circular kitchen sink with swan-neck mixer tap, circular washing up bowl, drainer and chopping board
- 08 Steel frame seat base supports and bulkhead (model specific)
- 09 Low-level night lights

Optional Extras

- 10 Optional Piccadilly soft furnishings with co-ordinating curtains and two reversible scatter cushions
- 11 Chest of drawers
- 12 Bespoke motorhome bedding sets to co-ordinate with soft furnishings (model specific)

Why Choose Bailey?

1 in 10 new motorhomes sold in the UK is a Bailey motorhome

Bailey is the UK's longest established independent manufacturer with over 65 years experience in leisure vehicle production and design

Bailey leisure vehicles are designed to be 75% recyclable to make them more environmentally friendly

Bailey has the most advanced manufacturing plant in the UK, featuring the industry's only mechanised production line, allowing us to further improve both the quality and value of our vehicles

Bailey products have received more third party endorsements from leading industry sources than any other in recent years reaffirming our position as the UK's favourite leisure vehicle brand

All of our products are certified by the National Caravan Council and have attained Whole Vehicle Type Approval to ensure they are both legal and safe

Since 1948 approximately 165,000 Bailey leisure vehicles have been manufactured in Bristol. If positioned nose to tail these caravans and motorhomes would stretch over 1,000 miles - equivalent to the distance from Bristol to Vienna in Austria

Safety considerations are of paramount importance in any new motorhome and Bailey has always given significant emphasis to this aspect of product design. As a result, key features, such as an ABS braking system and high performance premium brand tyres have been specified as standard in all models, whilst fully approved three-point seatbelts and frames are fitted to every dedicated rear passenger seat.

However Bailey wanted to take this process a stage further and in 2011 it embarked on a two year motorhome crash test simulation programme at the internationally renowned Millbrook Proving Ground - one of Europe's leading test and development facilities for whole vehicles, systems and components. Based upon Millbrook's recommendations this consisted of a series of 30mph frontal impact tests on the HyGe Sled facility using a cell containing the dedicated rear passenger seating area mounted on a dummy cab and chassis.

This pioneering research has allowed Bailey to make significant enhancements to the motorhome bodyshell and furniture to help improve overall vehicle safety for both driver and passengers examples of which are as follows:

- AL-KO AMC chassis outriggers fitted to provide the floor with additional support beneath the dedicated rear passenger seating areas
- Anchoring of heavy appliances including the kitchen fridge and oven to the floor
- Steel framed seat base supports for all designated travel seats fitted with velcro secured cushions
- Steel framed structural bulkhead to support rear-facing designated travel seats
- Re-location of under locker lighting away from the immediate headroom space of rear passengers
- Dedicated stowage location of side mounted tables whilst in transit

This combined with the enhanced protection provided by the high performance Alu-Tech bodyshell and the re-enforced habitation area furniture, we believe, sets Bailey motorhomes apart from other products in terms of vehicle safety.
