

 **STOWFORD** *ST*

EXCLUSIVE
TO STOWFORD

Everything you need to know about **STOWFORD ST**

Bailey of Bristol in partnership with Stowford is delighted to announce the arrival of the all-new Stowford ST, a touring caravan range that offers you the best possible combination of comfort, practicality and value.

Exclusive to Stowford, the Stowford ST comes with a host of additional features that make your time away in these special caravans as relaxing and enjoyable as possible. Notably these include a Truma 100w solar panel, TRACKER PIR activated intruder alarm, an exterior BBQ point & 230v socket, bespoke soft furnishing & graphics schemes – plus much more, all included as standard specification.

Models shown: Stowford ST 640 and Stowford ST 642

Bespoke caravan bedding sets to co-ordinate with caravan soft furnishings available as a cost option

As with all Bailey leisure vehicles, models are built using our patented Alu-Tech construction technology, cloaked in a GRP outer skin, making them more robust, more durable and yet lighter than those manufactured using conventional methods to offer greater protection against the elements to keep you comfortable, safe and secure all year round.

Available in a choice of seven different layouts, including one twin axle option, the new Stowford ST truly has something for everyone

Enjoy your holiday your way.

YOUR HOLIDAY
your way

Alu-Tech is Bailey's patented construction system. Using an interlocking aluminium framework to clamp the body panels together, Bailey has created a shell that is much more robust and durable than anything that has come before.

To date, over 50,000 Bailey leisure vehicles have been built with this fully patented technology and are currently being used and enjoyed around the world.

1. Polystyrene core
2. Composite plastic extrusion
3. Alu-Tech rail
4. Structural fixing bracket
5. Alu-Tech rail insulation
6. GRP (glass reinforced plastic) outer and inner skin

How is Alu-Tech better?

1. Increased strength and durability...

giving you greater protection against the elements to keep you comfortable, safe and secure all year round.

2. Improved insulation...

keeping you warmer in the winter and cooler in the summer allowing you to holiday whenever and wherever you want.

3. Improved protection...

greater resistance to the elements increases the longevity of the vehicle and provides additional peace of mind to the owner.

4. Lighter bodysell...

making Bailey caravans accessible to a wider range of tow vehicles and making it more economical to own.

5. Better balanced bodysell...

makes the caravan inherently more stable enabling it to take even the most demanding journeys in its stride.

6. Cost neutral improvements...

all of the benefits of Alu-Tech come at no extra cost to the customer.

ABOUT STOWFORD SOUTH WALES AND STOWFORD CARAVAN CENTRE

Stowford South Wales opened in 2011 and has quickly become a centre of excellence for all leisure vehicles. It is situated on a 5 acre site on the A4119 close to Llantrisant and supplies both new and preowned Motorhomes, Caravans and Campervans. The site also includes a Caravan accessory shop and provides the very latest in caravan storage and workshop facilities.

Stowford South Wales

Stowford Caravan Centre is situated on the renowned Stowford Farm Meadows Holiday Park in North Devon, making it one of the largest Caravan destinations in the UK. From this base it supplies both new and preowned Motorhomes, Caravans and Campervans and is fully supported by extensive Workshop and Caravan Storage facilities, plus the opportunity to use the van on site either on a touring or seasonal pitch.
