It is with the retailer that the purchaser's Contract of Sale exists and consequently Bailey of Bristol cannot enter into any discussions with the purchaser.

All Bailey products are classified as "portable". All work under warranty required that the motorhome be delivered to and collected from the Bailey retailer.

Whilst every effort is made within this handbook to accurately reflect and describe our home market motorhomes (those purchased and stored on the mainland) our policy of continued improvements and change in market and supply conditions mean that we reserve the right to alter specification without further notice. Some materials used in the production of our caravans can result in variations to the figures quoted in respect of measurements and weights.

### Motorhome Warranty Cover

Total satisfaction is the top priority at Bailey and the quality ethos extends to the after-sales service and manufacturer's warranty that comes with every new Bailey Bailey Approach motorhome. In this way we not only ensure long-term peace of mind but also enhance the resale value of your investment.

Approved Bailey Retailers enjoy industry leading after-sales support service from the manufacturer and they should be able to offer all the help you need to rectify any problems that may exist. It should be noted that Bailey Retailers sell our products of their own choice and not as agents of Bailey. Accordingly they have no authority to bind Bailey or make representation or undertaking whatsoever on behalf of Bailey.

**MOTORHOME SERVICE SCHEDULE**

In order to validate the factory backed warranty package, your motorhome must be serviced by an approved Bailey Service Centre every 12 months (or within 6 weeks of each anniversary of purchase) in accordance with the NCC recommended service schedule.

A full listing of the current Approved Bailey Centres can be found on the Retailer Network pages of our website @ [www.bailey-caravans.co.uk](http://www.bailey-caravans.co.uk).

**WARNING:** In no circumstances should the body shell fixings be tampered with or adjusted by the motorhome owner. In instances where this has occurred the warranty will be automatically invalidated.

**STANDARD MOISTURE SURVEY FOR ALU-TECH CONSTRUCTION MOTORHOMES**

The following moisture survey must be carried out using a calibrated moisture meter every 12 months by an Approved Bailey Service Centre.

Readings should be taken on the floor section of the motorhome in positions where the holes created by the meter's probes are not visible i.e. behind seals, in bed boxes or in cupboard bases. It is important to make sure that the probes are free of moisture and the surface of the floor is free from condensation.

Readings below 20% are considered acceptable. Readings greater than 20% will identify areas that need further investigation and possible remedial work.

All other parts of the body of the Alu-Tech motorhome should be checked visually for moisture ingress.

**THERMAL INSULATION GRADE**

All Bailey Alu-Tech Motorhomes are manufactured and approved by the NCC to EN1646-1 thermal insulation and heating classification Grade III. This has been approved using the motorhome space heater using both the heating and gas as the heating method.

Grade III is classified as being able to achieve an average temperature difference of 35 degrees centigrade between inside the motorhome and outside when the exterior temperature is -15 degrees outside.
